

Experience The Lifestyle!

Climb on, put it in gear, and enjoy the feeling of fresh air in your face and all the different aromas you'll notice as you travel through the countryside. Until you experience it, there's just now way to really describe it. It's a feeling of freedom that's as enjoyable, as it is relaxing. If you've ridden a motorcycle before, you know exactly what we're talking about. It's so much fun, it should be illegal.

California Trikes is the original builder of custom three-wheeled trikes. We have recently expanded our three-wheel division and incorporated some exciting new features and models into our line-up. This year we are pleased to introduce an all new automatic,

that's right, no more shifting! It could not be any easier, put it in drive and go. For you die-hard shifter fans, of course we still have our four-speed models. In addition, you can choose between a Springer style front end or the all new Wide Glide. The Wide Glide offers a conventional fork assembly and slightly tighter turning radius. Every model is powered by

a dependable 1915cc VW air-cooled motor and available in yellow, blue, red or black.

For more information please feel free to call us and speak to a customer service representative. We hope to see you on the road soon, until then thank you for your interest in California Trikes.

DEPENDABLE, ECONOMICAL AND FUN!
Great gas mileage and VW's proven history for making dependable air-cooled motors makes our California Trikes run as good as they look. Disc brakes, custom wheels, quality suspension components and of course a wheelie bar for those of you who just can't resist temptation.
